

**Button batteries are common but unsustainable**

**Oversized**  
energy not scaled  
to application

**Expensive**  
to integrate into devices

**Pollutant**  
>70% batteries not recycled  
in EU – 20.000 tons/y

Sustainable batteries!

## Unique Selling Proposition

### Paper-based batteries

Clean energy ready to power your portable device

#### Unlimited shelf life

It does not suffer from self-discharge

#### Cost-effective

Low cost manufacturing

Generation of electric power

#### Scalable

Energy and size adjusted to application

#### Cleantech

Disposable without environmental impact
