Hospital in Legnica

One of the largest hospital in the Lower Silesian Voivodeship Government region,

- 25 hospital wards (around 600 patient beds),
- over 1700 employees, including:
 - 337 doctors,
 - 653 nurses

It plays a vital role in the region's healthcare system, undertaking national projects aimed at enhancing the quality and accessibility of medical care

So far, we have don't conducted international projects.

Our research support asset

- We have significant human and equipment potential to conduct research,
- Our employees participate in numerous research programs, particularly in
 - cardiology,
 - hemotherapy.
- We have a signed cooperation agreement with academic units regarding healthcare.

- HORIZON-HLTH-2026-01-CARE-01: Public procurement of innovative solutions (PPI) for improving citizen's access to healthcare through integrated care
- Exploring ways to digitize and support the process with artificial intelligence to ensure comprehensive and integrated healthcare.

Project idea/Expertise offer/Collaboration :

- Introduce your experience/collaborations?
- Scope of the project
- Who/what is needed
- Where to apply (e.g. Horizon Europe open calls, European Institute for Innovation and Technology (EIT) calls, calls organized by the European Partnerships)

Thank you
